

value loop

Continuous control for your fleet. Delivering value that grows over time

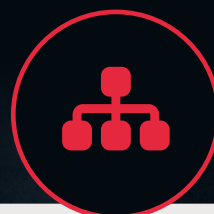

Chevin gives fleet teams more than just software at go-live. We build solutions around real fleet challenges, continuously evolving to keep operations compliant, efficient, and in control, year after year.

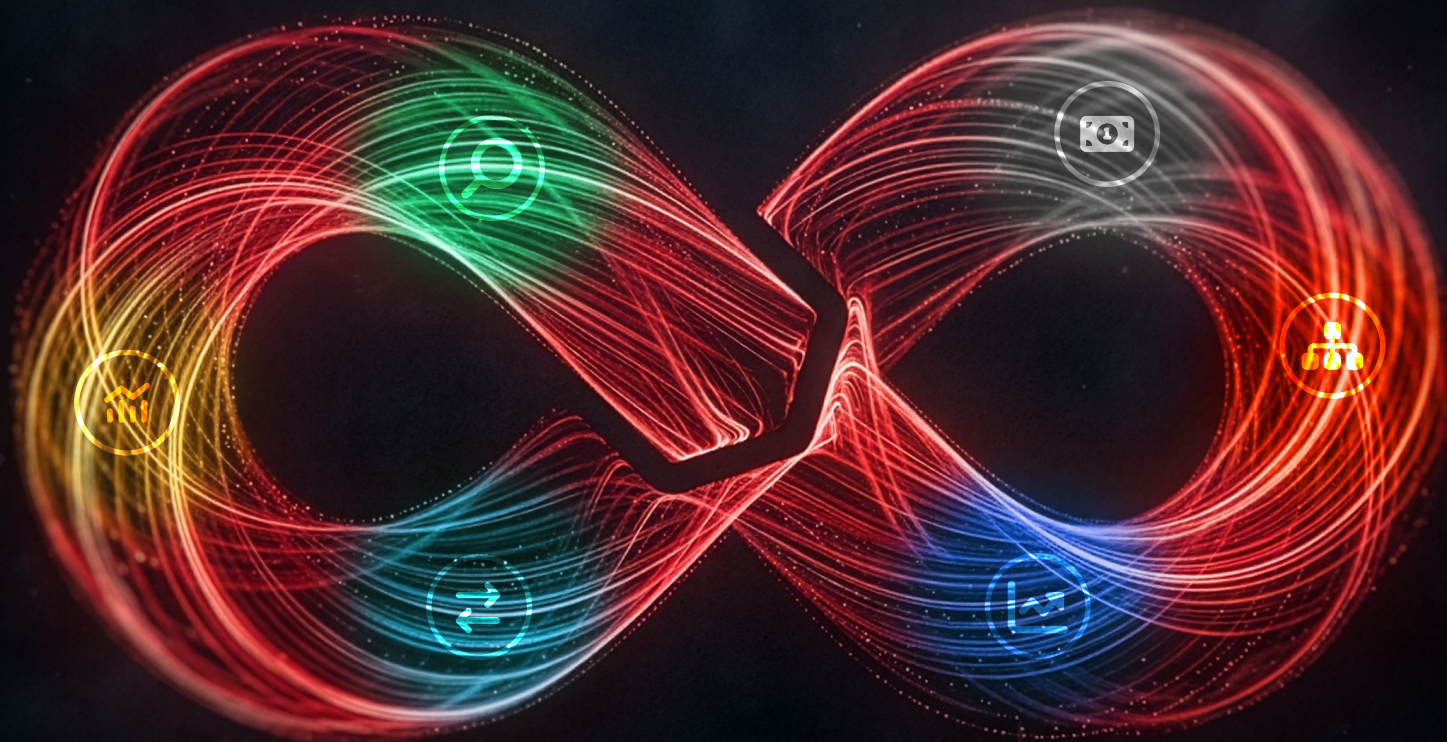

Identify real fleet challenges based on how fleets actually operate

Drive ongoing value without re-platforming or added cost

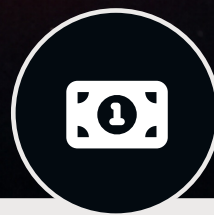

Enhance operations across compliance, maintenance, reporting and integration

Refine and continuously evolve

Gain measurable impact

Deliver solutions around your needs
