About the framework

G-Cloud is a UK government framework that enables public sector organisations and charities to procure cloud-based services via their Digital Marketplace. Buyers can search, compare and purchase approved services from a central catalogue. The [latest version](#), 15, guides you through the buying process.

How to buy

- Visit the [Digital Marketplace](#) and register on the platform, if required
- Search for Chevin Fleet Solutions or Service ID: **333707146740461** or directly visit our landing page
- Review the service definition, pricing and terms
- Issue a Call-Off Agreement, referencing our Service ID
- Option to direct award or run competition tender, in line with the [Buying Guide](#)

 chevin

- Available on G-Cloud 15 (Lot 2b – Software as a Service)
- Contracted until October 2030
